

443 623

Use Restrictions

1.01 Each and every of the lots described above shall be known and described as residential lots, and no structure shall be constructed or erected on any residential lots other than one detached single family dwelling not to exceed two stories in height, including an attached one or two car garage or carport.

Setback Restrictions

2.01 No building shall be erected on any of said lots nearer than twenty-five (25) feet to the front lot lines of said lots, nor nearer than eight (8) feet to any interior side lot line nor nearer than fifteen (15) feet to the rear lot lines of said lots, except that on corner lots no structure shall be permitted nearer than twenty-five (25) feet to the front lot line of said corner lot, nor nearer than twenty (20) feet to the side street line. Swimming pools, with or without enclosures may not be erected or placed on the lots unless and until their location and architectural and structural design have been approved in writing by the Architectural Design Committee appointed from time to time by the St. Augustine Shores Service Corporation, Inc., a non-profit Florida corporation (hereinafter referred to as the "Service Corporation"). For the purpose of this covenant, eaves shall be considered as a part of a building, and any portion of a building on a lot shall not be permitted to encroach upon another lot or easement.

2.02 When two or more lots are used as one building site the setback restrictions set forth in Paragraph 2.01 above shall apply to the exterior perimeter of the combined site.

Residential Sites and Building Size Restrictions

3.01 None of said lots shall be divided or resubdivided unless divided portions of said lots be used to increase the size of an adjacent lot or the adjacent lots as platted. Divided portions of lots must extend from fronting street line to existing rear property line.

3.02 No outbuilding shall be of a width less than ten (10) feet exclusive of the attached garage or carport, either of which shall conform generally in architectural design, setback requirements as set forth in Paragraph 2.01 and exterior materials similar to the main structure.

3.03 Every structure placed on any lot shall be constructed from new material, unless the use of other than new material therefor shall have received the written approval of the Architectural Design Committee.

3.04 No residence shall be constructed or maintained which shall have a ground floor area of less than eight hundred and fifty (850) sq. ft. For purposes of computing the sq. ft. above, areas shall be exclusive of porches, patios, garages, and carports provided, however, that with the written consent of the Architectural Design Committee, the minimum ground floor area of any home may be reduced by not more than 50 square feet, if such reduction, in the opinion of the Committee, would not be detrimental to the appearance of such home and to the subdivision.

Nuisance, Trash, etc.

4.01 No noxious or offensive trade shall be carried on upon any lot, nor shall anything be done there on which may be or become an annoyance or nuisance to the neighborhood.

4.02 No trailer, basement, tent, shack, garage, barn or other outbuilding erected on any lot shall at any time be used as a residence, temporarily or permanently, nor shall any residence of a temporary character be permitted.

4.03 No sign of any kind shall be displayed to the public view on any lot, except one (1) professional sign of not more than forty (40) square inches or one (1) sign of not more than forty (40) square inches advertising the property for sale or rent.

Such "For Rent" sign shall be securely nailed or otherwise fastened securely to a stake or post which itself shall be fastened into the ground, which shall project not more than three (3) feet above the surface of the ground. The subdivider, however, may erect and maintain on said property any signs and other advertising devices as it may deem necessary or proper in connection with the conduct of its operations for the development, improvements, subdivision and sale of said property, regardless of whether they conform to the above standards.

4.04 No oil drilling, oil development operations, oil refining, quarrying or mining operations of any kind shall be permitted upon or in any lot, nor shall oil wells, tanks, tunnels, mineral excavation or shafts be permitted upon or in any lot. No derrick or other structure designed for use in boring for oil or natural gas shall be erected, maintained or permitted upon any lot.

4.05 No animals, livestock or poultry of any kind shall be raised, bred or kept on any lot, except that dogs, cats or other household pets are permitted accessory use in all residential districts provided the number of such pets over 10 weeks in age shall not exceed four unless an exception has been granted allowing a greater number, and provided that they are not kept, bred or maintained for any commercial purpose and provided they are maintained under control at all times.

4.06 No lot shall be used or maintained as a dumping ground for rubbish, trash, garbage, derelict vehicles or fixtures, and other waste shall not be allowed to accumulate and shall not be kept except in sanitary containers, which shall be maintained in a clean and sanitary condition.

4.07 No tractors, trucks or trailers may be parked overnight on any of the streets, roads or lots in this subdivision.

4.08 No clothes line or clothes pole may be placed on any lot unless it is placed on the lot in such manner as to make it least visible to any street, and in no case shall it be attached to the main residence.

4.09 No antenna or aerial shall be installed or placed on any lot or property or to the exterior of any single family dwelling or accessory building thereto unless written permission is obtained from the Architectural Design Committee. Standard automobile aerials and standard aerials attached to small portable electronic devices such as radios, shall not be deemed to be prohibited by this section. The Architectural Design Committee shall have the right, from time to time, to adopt reasonable rules, regulations and standards governing the placement of exterior antennae and aerials.

4.10 No lawn, fence, hedge, tree or landscaping feature on any of said lots shall be allowed to become obnoxious, overgrown or unsightly in the sole reasonable judgment of the Service Corporation or its duly appointed Architectural Design Committee or its agent. In the event that any lawn, fence, hedge, tree or landscaping feature shall become obnoxious, overgrown, unsightly, or unreasonably high, Service Corporation as is hereafter described shall have the right, but not the obligation, to cut, trim or maintain said lawn, fence, hedge, tree or landscaping feature and to charge the owner or lessee of the lot a reasonable sum therefor and the Service Corporation shall not thereby be deemed guilty of a trespass. If said charge is not paid to the Service Corporation within thirty (30) days after a bill therefor is deposited in the mails addressed to the last known owner or lessee of the lot at the address of the residence or building on said lot, or at the address of the owner as shown in the tax records of St. Johns County, Florida, then said sum shall become delinquent and shall become a lien to be collectible the same as other delinquent fees as set forth in Article 11.00 hereof. The Service Corporation or its agent or the Architectural Design

Committee or its agent shall have the right, from time to time, to adopt reasonable rules, regulations and standards governing the conditions of lawns, fences, hedges, trees, or landscaping features including, but not limited to, standards regarding the height of growth of grass, trees and bushes, conditions of lawns, removal of weeds, replacement of dead or diseased lawns and similar standards.

Well Water

5.01 Each lot shall be limited to the installation and use thereon of one individual well which may only be used for irrigation systems, sprinkler systems, swimming pools or air conditioning. Upon completion of construction of each such well and prior to it being placed into service, a sample of water from the well shall be analyzed by a competent laboratory and the written results of such tests shall be furnished to St. Augustine Shores Utilities, a Division of The Deltona Coporation or to its successors or designee; and the well shall not be used for any purpose whatsoever unless the chemical characteristics of the water are as set forth by the Public Health Service Drinking Water Standards (1962) (S.) and as amended from time to time, with the exception that there shall be no limits for iron and manganese. No storm water or water from individual water wells located on any of said lots shall be discharged in such a manner that such water will enter the sewer main installed by the sewer utility company without written permission from the sewer utility company.

Fences

6.01 No fences, walls, hedges or continuous plantings shall be permitted on vacant lots or within the area between the rear of a residence and the street property line. The purpose of this section is to restrict the use of fences, walls, hedges or continuous plantings within said area which are designed to fully or partially enclose, border or outline said lots or portion thereof and the purpose is not to restrict ornamental landscaping

features and plantings to beautify said lots, notwithstanding the fact that said ornamental features and plantings may include incidental features and plantings of hedge not generally designed to enclose border or outline the lot. In the event of any dispute between a lot owner and the Subdivider, or its agent or the Service Corporation or any other lot owner as to whether any feature is a fence, wall, hedge or continuous planting which is restricted by this section, the decision of the Architectural Design Committee, regarding said feature, shall be final.

Obstruction to Sight Lines

7.01 No fence, sign, wall, hedge or shrub planting which obstructs sight lines at elevations between two and six feet above the roadways shall be placed or permitted to remain on any corner lot within the triangular area formed by the street property lines and a line connecting them at points twenty-five (25) feet from the intersection of the street lines, or in the case of a rounded property corner from the intersection of the street property lines extended. The same sight line limitations shall apply on any lot or tract within ten (10) feet from the intersection of a street property line with the edge of a driveway or alley pavement. No tree shall be permitted to remain within such distance of such intersections unless the foliage line is maintained at sufficient height to prevent obstruction of such sight lines.

Easements

8.01 All easements for utilities, drainage canals and other purposes shown on the plats of St. Augustine Shores Subdivision recorded in the plat records of St. Johns County, Florida, are thereby reserved as perpetual easements for utility installations and maintenance.

8.02 All the lots are subject to easements and right-of-way for erecting, constructing, maintaining or operating public sewers, or poles, wires or conduits for lighting, heating, power, telephone, lines for gas, cable T.V. and any other method of conducting and performing a public or quasi-public utility service

or function over or beneath the surface of the ground, as such easements and rights-of-way are reasonably required, in an area extending from the side lot lines of each lot to a line five (5) feet from said side lot line or lines and running parallel therewith and an area extending from the rear lot line or lines of each lot to a line ten (10) feet from the said rear lot line or lines and running parallel therewith, except as otherwise shown on said plat.

Drainage

9.01 No changes in elevations of the land shall be made to any lot which will interfere with the drainage of or otherwise cause undue hardship to adjoining property or result in increased erosion after the initial conveyance of said lot by the Subdivider.

Architectural Design Committee

10.01 No residences, additions thereto, add-ons, accessories, pools, fences, hedges or any other such structures, shall be erected, placed, constructed, altered or maintained upon any portion of said lots, unless a complete set of plans and specifications therefor, including the exterior color scheme, together with a plot plan indicating the exact location on the building site, shall have been submitted to and approved in writing by the Architectural Design Committee appointed from time to time by the Service Corporation or its duly authorized subcommittee or agent, and a copy of such plans as finally approved are deposited for permanent record with the Committee. Said Committee shall consist of a minimum of two persons neither of whom shall be required to own property in the Subdivision. Such plans and specifications shall be submitted in writing and for approval, over the signature of the owner or his duly authorized agent, on a form which may be prepared by and shall be satisfactory to the Committee and receipted therefor. The approval of said plans and specifications may be withheld, not only because of their compliance with any of the specific restrictions contained in this and other clauses hereof, but also by reason of the reasonable dissatisfaction of

the Committee or its agent with the grading plan, location of the structure on the building site, the engineering, color scheme, finish, design, proportions, architecture, shape, height, style or appropriateness of the proposed structure or altered structure, the materials used therein, the kind, pitch or type of roof proposed to be placed thereon, or because of its reasonable dissatisfaction with any or all other matters or things which, in the reasonable judgment of the Committee or its agent, would render the proposed structure inharmonious or out-of-keeping with the general plan of improvement of the Subdivision or with the structures erected on other building sites in the immediate vicinity of the building site on which said structure is proposed to be erected.

10.02 The Committee shall be authorized to establish further reasonable rules and regulations for approval of plans as required by this Article and for approval or interpretation of other matters and things requiring the approval or interpretation of the Committee as otherwise set forth in these restrictions.

10.03 The approval of the Committee for use on any lot of any plans or specifications submitted for approval, as herein specified, shall not be deemed to be a waiver by the Committee of its right to object to any of the features or elements embodied in such plans or specifications if and when the same features or elements are embodied in any subsequent plans and specifications submitted for approval as herein provided, for use on other lots.

10.04 If, after such plans and specifications have been approved, any building, fence, wall or other structure or thing shall be altered, erected, placed or maintained upon the lot otherwise than as approved by the Committee, such alterations, erections and maintenance shall be deemed to have been undertaken without the approval of the Committee ever having been obtained as required by these restrictions.

10.05 Any agent or officer of the Service Corporation or the Architectural Design Committee may from time to time at any reasonable hour or hours, in the presence of the occupant thereof, enter and inspect any property subject to these restrictions as to its maintenance or improvement in compliance with the provisions hereof; and the Committee and/or any agent thereof shall not thereby be deemed guilty of any manner of trespass for such entry or inspection.

10.06 For the purpose of making a search upon, or guaranteeing or insuring title to, or any lien and/or interest in, any of said lots and for the purpose of protecting purchasers and encumbrancers for value and in good faith as against the performance or nonperformance of any of the acts in the restrictions authorized, permitted or to be approved by the Committee, the records of the Committee shall be prima facie evidence as to all matters shown by such records; and the issuance of a certificate of completion and compliance by the Committee showing that the plans and specifications for the improvements or other matters herein provided for or authorized have been approved, and that said improvements have been made in accordance therewith, or of a certificate as to any matters relating to the Committee be prima facie evidence and shall fully justify and protect any title company or persons certifying, guaranteeing or insuring said title, or any lien thereof and/or any interest therein, and shall also fully protect any purchaser or encumbrancer in good faith and for value in acting thereon, as to all matters within the jurisdiction of the Committee. In any event, after the expiration of two (2) years from the date of the completion of construction for any structure, work, improvement or alteration, said structure, work, improvement or alteration shall, in favor of purchasers and encumbrancers in good faith and for value, be deemed to be in compliance with all the provisions hereof, unless actual notice executed by the Committee of such noncompletion and/or noncompliance shall appear of record in the office of the Clerk of the Circuit Court of St. Johns County, Florida, or legal proceedings shall have been instituted to enforce compliance with these restrictions.
